

The Killers Website

Notes from microsite review

Creative Director: Sarah P.

Designer: Sherry X.

We discussed some small areas of improvement to enhance consistency and cleanliness:

- Thinner, sleeker typeface to make the text less clunky and hyperpresent
- Work on image scale and responsiveness to cater to different screen sizes
- Change text and page animation to make the transitions less harsh
- Work on album page ~ combine the album page with the list of songs to contain the information in a single page that makes navigation easier
- Remove sources page
